Total Acidity	0.75 grams/100ml
pH	3.68
Alcohol	14.2%

PRODUCTION
273 Cases

UPC
N/A

WINEMAKER'S NOTES
It's time for some "real" pink people! Rosé as it was intended to be... The grapes were harvested between 22 – 24 degrees brix and fermented to dryness in stainless steel tank at cold temperatures to preserve the beautiful aromas. The Ramblin' Rosé is crisp, clean, fruit forward and utterly delicious. Why not enjoy the Spring Fling with a bit of the pink Zing! Go ahead and get into that bottle.
